

Model Q

QPS-The Cove Lift

The Cove Lift, characterized by its clean lines and remarkable adaptability, exudes a quiet confidence suitable for any workspace. Available in three practical sizes—1200mm, 1500mm, and 1800mm—it provides an ideal scale for focused individual work. Perfect for both modern offices and home studies, the table's minimalist design seamlessly integrates with various interior aesthetics. Its sturdy construction ensures durability, while the choice of finishes offers versatility to match different décor styles. Whether placed in a corporate setting or a cozy home office, this table serves not only as a functional workspace but also as a statement piece that enhances productivity and inspires creativity.

QPS-ZONE MODULAR

The Zone collection's modular panel blends sleek design with functionality, fostering a serene atmosphere in communal spaces. It reduces noise, offers visual privacy, and fits well in modern cafés or quiet libraries. Its simple design suits various styles, and its durable construction ensures lasting support. Available in multiple finishes, it adapts to different décors, making it an inspiring addition to offices or study areas.

QPS-The WorkBay

The WorkBay combines elegant design and versatility to enhance any workspace. Offered in sizes of 1200mm, 1500mm, and 1800mm, it supports both individual work and collaboration, providing a balance of privacy and openness. Its acoustic panels minimize noise, fostering productivity, while integrated power outlets and cable management keep the area organized. With its modern look and functional design, The WorkBay is essential for creating an inspiring and efficient work environment.

QPS-Dual-L Shape Pod Workstation

The Dual-L Shape Pod Workstation fosters versatility and collaboration for two users while allowing for personal focus. Its contemporary design features ergonomic seating and adjustable desks for optimal comfort, complemented by integrated technology ports and effective cable management to boost efficiency. Crafted from sustainable materials, it embodies an environmentally friendly ethos, making it ideal for forward-thinking businesses.

QPS-The Axis Lift

The Axis Lift Pod Adjustable combines elegance and versatility, enhancing workspaces with its sophisticated design. Available in sizes of 1200mm, 1500mm, and 1800mm, it suits individual and collaborative use. Its modern look, durable construction, and height-adjustable feature promote ergonomic comfort and productivity. Ideal for home offices or corporate environments, it integrates seamlessly with customizable options. The intuitive mechanism allows easy transitions between sitting and standing, while cable management and optional privacy screens create a clutter-free workspace. Experience the future of flexible working with the Axis Lift Pod Adjustable, where style meets functionality.

QPS-1 SEATER SOFA

The U-shaped 1 Seater sofa features a curved design that fosters a welcoming atmosphere for conversations. Measuring 850mm in length, it's suitable for lounges and workspaces. It includes comfort panels, acoustic support, side compartments, and device charging options, enhancing its functionality.

QPS-2 SEATER SOFA

The U-shaped sofa features a curved design that fosters a warm atmosphere for casual conversations. Measuring 1450mm, it suits lounges and workspaces. It includes comfort panels, acoustic support, side compartments for personal items, and device charging capabilities, enhancing functionality.

QPS-The Arbor & Forge

The Arbor & Forge, known for its sleek lines and exceptional versatility, radiates a subtle confidence that fits perfectly in any work environment. Offered in three convenient sizes—1200mm, 1500mm, and 1800mm—it is tailored for focused individual tasks. Ideal for both contemporary offices and home studies, the table's minimalist design effortlessly complements various interior styles. Built with durability in mind, its robust construction ensures longevity, while a selection of finishes provides the flexibility to harmonize with different décor. Whether situated in a professional setting or a cozy home office, this table not only functions as a workspace but also serves as a striking centerpiece that boosts productivity and fosters creativity.

QPS-ZONE SOLO

The Zone Solo is distinctly designed as a productivity area for one user. Offered in sizes of 1200mm, 1500mm, and 1800mm, it is perfectly suited for individual tasks in modern offices and home studies alike. With its robust construction and a variety of finishes, it can seamlessly blend with different interior styles, serving as both a practical solution and a captivating centerpiece that boosts productivity and creativity.

QPS-ACOUSTIC

This acoustic panel pairs a clean look with flexible use, bringing a calm and focused feel to any shared space. It softens sound, adds visual privacy, and fits naturally into both modern cafés and quiet library corners. Its simple shape blends with many room styles, while its strong build offers lasting support. With a range of finishes, it settles easily into different décor. Whether in a workplace or study area, it becomes a practical spot that also encourages fresh ideas.
