Cluster HEXA Workstation

XPS-Cluster Array Workstation

The Cluster Array Workstation offers both cluster and linear configurations for a sleek, space-efficient office setup. Its modular frameless panel system supports flexible layouts, seamless expansion, and a clean modern aesthetic. Fully customizable to suit evolving workspace needs, it is available in standard tabletop sizes of L1200mm, L1500mm, and L1800mm.

XPS-Cluster L-Shape Quad Workstation

Designed for flexibility and scalability, the Cluster L-Shape Quad Workstation adapts easily to growing teams and changing office layouts. Its modular configuration maximizes workspace efficiency while creating comfortable individual work zones for improved focus and productivity.

XPS-Cluster Y TRIP Workstation

The Cluster Y TRIP Workstation combines collaborative planning with individual privacy in a compact, space-efficient layout. Its Y-shaped configuration encourages team interaction while maintaining focused personal work areas within modern office environments.

XPS-Cluster HEXA Workstation

The Cluster HEXA Workstation features a hexagonal modular layout designed to create private and focused workspaces within open-plan offices. Its enclosed panel design enhances acoustic comfort, improves concentration, and optimizes space utilization.

XPS-Cluster FLO Workstation

Inspired by soft flowing curves, the Cluster FLO Workstation brings a welcoming and contemporary feel to collaborative workspaces. Its open modular layout promotes communication, flexibility, and efficient workspace organization while enhancing modern office aesthetics.

XPS-Cluster ORBIT Workstation

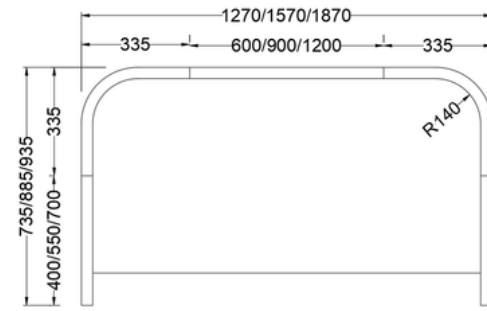

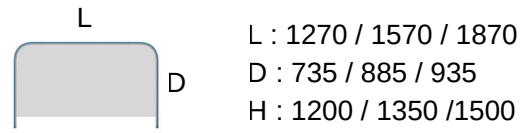

The Cluster ORBIT Workstation features a soft curved pod-inspired design that creates semi-private work zones for focused productivity. Its modular enclosed layout improves privacy, reduces distractions, and delivers a refined contemporary workspace experience.

Divide Systems-30mm (R50)

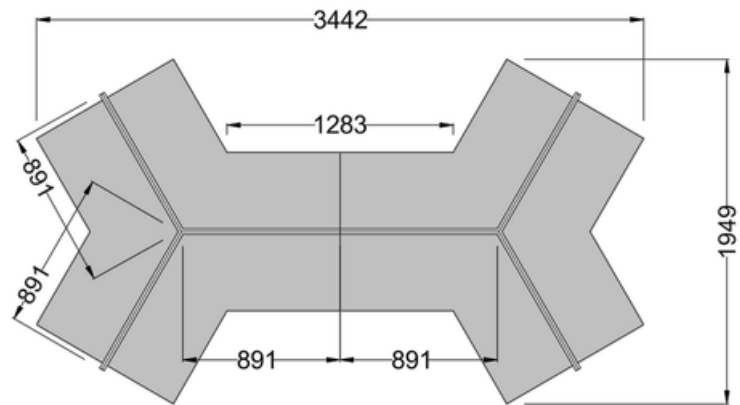

GEO Divider panel Workstation

Array Divider panel Workstation

Y TRIP Divider panel Workstation

XPS-Array Divider panel Workstation

The XPS – Array Divider Panel Workstation creates organized team workspaces with enhanced visual privacy and a clean modern aesthetic. Its soft-edge divider panels provide acoustic comfort while maintaining an open collaborative environment.

XPS-Y TRIP Divider Panel Workstation

The XPS – Cluster Divider Panel Workstation is designed for modern collaborative environments, balancing connectivity and functionality. Its integrated divider panels create structured individual stations while promoting a cohesive team setting. Crafted from high-quality materials, the workstation boasts durability and a sleek aesthetic. Smart cable management keeps wires organized, and acoustically optimized panels reduce noise distractions. Its modular design allows easy reconfiguration, making it adaptable to changing workspace needs. Emphasizing ergonomic comfort and efficient space use, this workstation enhances productivity and collaboration in fast-paced business environments.

XPS-GEO Divider Panel Workstation

Workstation is designed to create structured and distraction-reduced work environments within open spaces. Its panel system provides visual separation and improved focus while maintaining a clean and modern workspace aesthetic.

Ideal for offices, study zones, and library environments, the divider panels help define personal work areas for enhanced concentration and quiet productivity. The modular layout allows flexible configurations to suit collaborative spaces, learning areas, and evolving workspace needs.
